

## Our Method

Each class will have at least one (and oftentimes two!) native Thai teachers. These instructors will act as guides, leading students to experience Thai language & culture in a natural, fun, and engaging context.

Just as a student learned his or her first language, our approach helps learners to acquire the Thai language through extensive listening, observation, and numerous forms of participation.

Students will begin by listening and observing, just as they did as small children. Thereafter, they will begin to speak and eventually learn to read and write. This follows the same path we took in learning our first languages.

## Succeeding at AUA Thai

## Getting Started with AUA Thai

Is this your first time at AUA? Here is what to expect!

### Beginner Level

This level offers an introduction to the Thai language, provides a foundation in the sounds & vocabulary of the language, and develops students' skills to learn in and outside of the classroom.

Beginner students will focus on listening comprehension and become familiar with Thai culture. Students do not yet speak, read or write but are still actively involved in the classes!

### Intermediate Level

At the next level, students continue with their listening comprehension and will discover elementary speaking. They are also invited to attend our *Introduction to Reading and Writing* module.

Students will begin to speak short words and phrases during this phase, learn more advanced material through listening, and start to identify and produce Thai characters.

### Advanced Level

Finally, students continue the listening and speaking of earlier levels, but more complex and difficult topics are offered. The daily Reading and Writing module is open to the Advanced Level students.

Students at this level routinely begin to speak more regularly and feel comfortable to actively participate in daily Thai life. All four language skills (listening, speak, reading, and writing) continue to be developed at this stage.
